

KLONDIKE SILVER

OUR VISION: Zinc/Silver/Lead Production

Financial Statements

For the Year Ended May 31, 2019

(Expressed in Canadian Dollars)

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of
Klondike Silver Corp.

Opinion

We have audited the financial statements of Klondike Silver Corp. (the "Company"), which comprise the statements of financial position as at May 31, 2019 and 2018, and the statements of operations and comprehensive loss, changes in deficiency and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at May 31, 2019 and 2018, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRSs").

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the financial statements, which indicates that the Company incurred a net loss of \$650,689 during the year ended May 31, 2019 and, as of that date, the Company's current liabilities exceeded its total assets by \$1,046,196. As stated in Note 1, these events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information. The other information comprises the information included in the management's discussion and analysis.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Jack Christiansen.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Klondike Silver Corp. (the "Company") was incorporated on March 2, 2005 under the laws of the Province of British Columbia, Canada. The Company is a public company listed on the TSX Venture Exchange (the "TSX.V"), trading under the "KS" symbol. The address of the Company's corporate records office and principal place of business is Suite 804 – 750 West Pender Street, Vancouver, British Columbia V6C 2T7. The principal business of the Company is the exploration of mineral properties in Canada and it is considered to be an exploration company.

The Company incurred a net loss of \$650,689 for the year ended May 31, 2019 (May 31, 2018 - \$1,215,161) and had a working capital deficit at May 31, 2019 of \$1,046,196 (May 31, 2018 - \$370,859) and a deficit of \$26,654,465 (May 31, 2018 - \$26,003,776). These statements have been prepared on a going concern basis, which presumes the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. The Company's ability to continue as a going concern is dependent upon achieving profitable operations and upon obtaining additional financing. While the Company is expending its best efforts in this regard, the outcome of these matters cannot be predicted at this time.

The Company is in the process of acquiring, exploring and developing its exploration and evaluation assets and has not yet determined whether the properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets and related deferred exploration costs are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves, and upon future profitable production. The operations of the Company have primarily been funded by the issuance of common shares and ancillary income. Continued operations of the Company are dependent on the Company's ability to complete equity financing or generate profitable operations in the future. Management's plan in this regard is to secure additional funds through future equity financings, which may not be available or may not be available on reasonable terms. These factors may cast significant doubt on the Company's ability to continue as a going concern. Accordingly, the financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities, contingent obligations and commitments other than in the normal course of business and at amounts different from those in the financial statements.

2. BASIS OF PRESENTATION

a) Statement of Compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

Approval of the financial statements

These financial statements were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on September 25, 2019.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

2. BASIS OF PRESENTATION (Continued)

b) Basis of Measurement and Presentation

These financial statements have been prepared on a historical cost basis except for financial instruments that have been measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. In the opinion of management, all adjustments (including normal recurring accruals), considered necessary for a fair presentation have been included.

c) Foreign Currencies

The presentation currency of the Company and the functional currency of the Company is the Canadian dollar.

Transactions in currencies other than the functional currency are recorded at the rates of exchange prevailing on the dates of the transactions. At each financial position reporting date, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing at the date of the statement of financial position. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

d) Critical Accounting Judgments and Estimates

The preparation of these financial statements requires management to make judgments and estimates that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these judgments and estimates. The financial statements include judgments and estimates, which, by their nature, are uncertain. The impacts of such judgments and estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and the revision affects both current and future periods.

Significant assumptions about the future and other sources of judgments and estimates that management has made at the statement of financial position date, that could result in a material adjustment to the carrying amounts of assets and liabilities, relate to, but are not limited to, the following:

Critical Judgments

- Management is required to assess indications of impairment on its exploration and evaluation assets in accordance with IFRS 6 as described in the Company's significant accounting policies
- The Company assesses the possibility and amount of any impairment loss or write-down as it relates to mill and equipment.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018

(Expressed in Canadian dollars)

2. BASIS OF PRESENTATION (Continued)

d) Critical Accounting Judgments and Estimates (Continued)

Critical Judgments (Continued)

- Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Company recognizes liabilities and contingencies for anticipated tax audit issues based on the Company's current understanding of the tax law. For matters where it is probable that an adjustment will be made, the Company records its best estimate of the tax liability including the related interest and penalties in the current tax provision. Management believes they have adequately provided for the probable outcome of these matters; however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

Estimates

The preparation of financial statements in accordance with International Financial Reporting Standards ("IFRS") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from management's best estimates, as additional information becomes available. The most sensitive estimates affecting the financial statements were the identification and capitalization of exploration costs, the existence of contingent assets and liabilities, the valuation of share-based compensation and the valuation of deferred income tax assets.

Areas where estimates are significant to the financial statements were as follows:

- the useful lives of mill and equipment which are included in the statements of financial position and the related amortization included in the statement of comprehensive loss;
- the inputs used in determining the net present value of the liability for decommissioning liabilities included in the statement of financial position;
- the inputs used in accounting for stock based compensation expense in the statement of loss and comprehensive loss; and
- the determination of income taxes and the valuation of deferred income tax assets.
- The amount and timing of the constructive obligation (Note 8)

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

a) Financial Instruments and Risk Management

The Company adopted all of the requirements of IFRS 9 Financial Instruments (“IFRS 9”) as of June 1, 2018. IFRS 9 replaces IAS 39 Financial Instruments: Recognition and Measurement (“IAS 39”). IFRS 9 utilizes a revised model for recognition and measurement of financial instruments and a single, forward-looking “expected loss” impairment model. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward in IFRS 9, so the Company’s accounting policy with respect to financial liabilities is unchanged. As a result of the adoption of IFRS 9, management has changed its accounting policy for financial assets retrospectively, for assets that continued to be recognized at the date of initial application. The change did not impact the carrying value of any of the financial assets or financial liabilities on the transition date.

The following is the Company’s new accounting policy for financial instruments under IFRS 9:

i) Classification

The Company classifies its financial instruments in the following categories: at fair value through profit or loss (“FVTPL”), at fair value through other comprehensive income (loss) (“FVTOCI”) or at amortized cost. The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company’s business model for managing financial assets and their contractual cash flow characteristics. Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL or if the Company has opted to measure them at FVTPL. The Company completed a detailed assessment of its financial assets and liabilities as at June 1, 2018

The following table shows the original classification under IAS 39 and the new classification under IFRS 9:

Financial assets/liabilities	Original classification IAS 39	New classification IFRS 9
Cash	FTVPL	FTVPL
Reclamation bonds	FTVPL	FTVPL
Loans receivable	Amortized cost	Amortized cost
Accounts payable and accrued liabilities	Amortized cost	Amortized cost
Due to related parties	Amortized cost	Amortized cost
Mortgage Payable	Amortized cost	Amortized cost

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

a) Financial Instruments and Risk Management (Continued)

ii) Measurement

Financial assets and liabilities at amortized cost

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost less any impairment.

Financial assets and liabilities at FVTPL

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statements of operations. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in the statements of operations in the period in which they arise.

iii) Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If, at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to the twelve month expected credit losses. The Company shall recognize in the statements of operations, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

iv) Derecognition of financial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity. Gains and losses on derecognition are generally recognized in the statements of operations.

Financial instruments are exposed to credit, liquidity and market risks. Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. Market risk is that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of price risk: currency risk, interest rate risk and other price risk.

Liquidity risk is significant to the Company's statement of financial position. The Company manages these risks by actively pursuing additional share capital issuances to settle its obligations in the normal course of its operating, investing and financing activities. The Company's ability to raise share capital is indirectly related to changing metal prices and the price of gold, silver, zinc and lead in particular. To mitigate this market risk, management of the Company actively pursues a diversification strategy with property holdings focusing on base metals as well as precious metals.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Cash and Cash Equivalents

Cash and cash equivalents consists of balances with banks, guaranteed investment certificates which are redeemable without penalty, and investments in financial instruments with maturities within three months held for the purpose of meeting short-term cash commitments rather than for investing or other purposes. The Company places its cash and cash equivalents with institutions of high-credit worthiness. As at May 31, 2019, and 2018, the Company had no cash equivalents.

c) Mill and Equipment

The mill comprises a used ore processing plant, used buildings and related equipment stated at cost less accumulated amortization. Amortization on mill and equipment is provided on the straight line method over estimated useful lives ranging from three to twenty years.

d) Exploration and Evaluation Assets

Exploration and evaluation expenditures include the costs of acquiring licenses, costs associated with exploration and evaluation activities, and the fair value (at acquisition date) of exploration and evaluation assets acquired in a business combination. Exploration and evaluation expenditures are capitalized as incurred. Costs incurred before the Company has obtained the legal rights to explore an area are recognized in profit or loss. Ancillary income received while the properties are in the exploration stage is credited to the carrying value of the mineral properties. Cost recoveries are credited against specific property costs, as received.

Exploration and evaluation assets are assessed for impairment if (i) sufficient data exists to determine technical feasibility and commercial viability, and (ii) facts and circumstances suggest that the carrying amount exceeds the recoverable amount.

Facts and circumstances relating to impairment as defined in *IFRS 6 exploration and evaluation assets* are as follows:

- the period for which the entity has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the entity has decided to discontinue such activities in the specific area;
- sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

In making the assessment, management is required to make judgments on the status of each project and the future plans towards finding commercial reserves. The nature of exploration and evaluation activity is such that only a proportion of projects are ultimately successful and some assets are likely to become impaired in future periods.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

d) Exploration and Evaluation Assets (Continued)

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, which management has determined to be indicated by a feasibility study, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified to mining property and development assets.

Recoverability of the carrying amount of any exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

It is management's judgment that none of the Company's exploration and evaluation assets have reached the development stage and as a result are all considered to be exploration and evaluation assets.

Although the Company has taken steps to verify title to exploration and evaluation assets in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

e) Impairment of Non-financial Assets

Impairment tests on intangible assets with indefinite useful economic lives are undertaken annually at the financial year-end. Other non-financial assets, including the mill, equipment and exploration and evaluation assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount, which is the higher of value in use and fair value less costs to sell, the assets is written down accordingly.

Where it is possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the asset's cash-generating unit, which is the lowest group of assets in which the asset belongs for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets. The Company has one cash-generating unit for which impairment testing is performed.

An impairment loss is recognized in the statement of operations, except to the extent they reverse gains previously recognized in other comprehensive income or loss.

f) Decommissioning Liabilities

The Company is subject to various government laws and regulations relating to environmental disturbances caused by exploration and evaluation activities. The Company records the present value of the estimated costs of legal and constructive obligations required to restore the exploration sites in the period in which the obligation is incurred. The nature of the rehabilitation activities includes restoration, reclamation and re-vegetation of the affected exploration sites.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

f) Decommissioning Liabilities (Continued)

The rehabilitation provision generally arises when the environmental disturbance is subject to government laws and regulations. When the liability is recognized, the present value of the estimated costs is capitalized by increasing the carrying amount of the related mining assets. Over time, the discounted liability is increased for the changes in present value based on current market discount rates and liability specific risks.

Additional environmental disturbances or changes in rehabilitation costs will be recognized as additions to the corresponding assets and rehabilitation liability in the period in which they occur.

g) Provisions

Provisions are recognized where a legal or constructive obligation has been incurred as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. If material, provisions are measured at the present value of the expenditures expected to be required to settle the obligation. The increase in any provision due to the passage of time is recognized as accretion expense.

h) Share Capital

i) Non-monetary consideration

Agent's warrants issued as purchase consideration in non-monetary transactions are recorded at fair value determined by management using the Black-Scholes option pricing model. The fair value of the shares issued as consideration for exploration and evaluation assets is based on the trading price of those shares on the TSX.V on the date of the agreement to issue shares as determined by the Board of Directors. Proceeds from unit placements are allocated between shares and warrants issued using the residual method.

ii) Flow-through shares

The Company will from time to time, issue flow-through common shares to finance a significant portion of its exploration program. Pursuant to the terms of the flow-through share agreements, these shares transfer the tax deductibility of qualifying resource expenditures to investors. On issuance, the Company bifurcates the flow-through share into; i) a flow-through share premium, equal to the estimated premium, if any, investors pay for the flow-through feature, which is recognized as a liability, and ii) share capital. Upon expenses being incurred, the Company derecognizes the liability and recognizes a deferred tax liability for the amount of tax reduction renounced to the shareholders. The premium is recognized as other income and the related deferred tax is recognized as a tax provision.

The Company may also be subject to a Part XII.6 tax on flow-through proceeds, renounced under the Look-back Rule, in accordance with Government of Canada flow-through regulations. When applicable, this tax is accrued as a financial expense until paid.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

h) Share Capital (Continued)

iii) Share-based payments

The share option plan allows Company employees and consultants to acquire shares of the Company. The fair value of options granted is recognized as an employee or consultant expense with a corresponding increase in equity. An individual is classified as an employee when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee.

The fair value is measured at grant date, and each tranche is recognized over the period during which the options vest. The fair value of the options granted is measured using the Black-Scholes option pricing model taking into account the terms and conditions upon which the options were granted. At each financial position reporting date, the amount recognized as an expense is adjusted to reflect the actual number of share options that are expected to vest.

In situations where equity instruments are issued to non-employees and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at the fair value of the share-based payment. Otherwise, share-based payments are measured at the fair value of goods or services received.

iv) Share issuance costs

Costs directly identifiable with the raising of share capital financing are charged against share capital. Share issuance costs incurred in advance of share subscriptions are recorded as non-current deferred assets. Share issuance costs related to uncompleted share subscriptions are charged to operations.

i) Loss Per Share

Basic loss per share is calculated by dividing the loss for the period by the weighted average number of common shares issued and outstanding during the period. Diluted loss per share is calculated using the treasury stock method. Under the treasury stock method, the weighted average number of common shares outstanding used for the calculation of diluted loss per share assumes that the proceeds to be received on the exercise of dilutive stock options and warrants are used to repurchase common shares at the average market price during the period. Basic and diluted loss per share is equal as outstanding stock options and warrants were all anti-dilutive.

j) Income Taxes

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in net income except to the extent that it relates to a business combination or items recognized directly in equity or in other comprehensive income or loss.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

j) Income Taxes (Continued)

Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current year and any adjustment to income taxes payable in respect of previous years. Current income taxes are determined using tax rates and tax laws that have been enacted or substantively enacted by the year-end date.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting nor taxable profit or loss.

Recognition of deferred tax assets for unused tax losses, tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available against which the deferred tax asset can be utilized. At the end of each reporting period the Company reassesses unrecognized deferred tax assets. Deferred income tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority.

k) Recently adopted accounting pronouncements

New standard IFRS 9, Financial Instruments – Classification and Measurement

IFRS 9 is the first step in the process to replace IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 introduces new requirements for classifying and measuring financial assets and liabilities and carries over from the requirements of IAS 39.

4. FUTURE ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective:

New standard IFRS 16, Leases

IFRS 16 is a new standard that sets out the principles for recognition, measurement, presentation, and disclosure of leases including guidance for both parties of a contract, the lessee and the lessor. The new standard eliminates the classification of leases as either operating or finance leases as is required by IAS 17 and instead introduces a single lessee accounting model.

The Company anticipates that the application of the above new and revised standards, amendments and interpretations will have no material impact on its results and financial position. Disclosure changes are anticipated.

5. RECLAMATION BONDS

The reclamation bonds at May 31, 2019 of \$195,500 (May 31, 2018 - \$120,500) are recorded at fair value and consist of deposits made by the Company for indemnification of site restoration costs for the Silvana Mine, Sandon Mill, and exploration sites located in BC. Reclamation bonds in the amount of \$100,000 are held in trust for the Company by a company controlled by a former common director.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018

(Expressed in Canadian dollars)

5. RECLAMATION BONDS (CONTINUED)

In connection with the Company's M-65 permit update in fiscal 2019, the Company was required to increase its reclamation by \$150,000 (\$75,000 paid). The remaining \$75,000 is due upon the Company raising \$1,750,000 through equity financing.

6. MILL AND EQUIPMENT

British Columbia Properties

Slocan and Sandon Group, British Columbia

The Slocan and Sandon Group covers an area of approximately 100 square kilometers. The claims include legacy claims, crown-granted claims and acquired or converted mineral claims. Not all claims are contiguous. One claim group is located approximately 7 km northeast of the main claim group and Sandon Mill, while another claim group is 7 km to the southeast.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

7. EXPLORATION AND EVALUATION ASSETS (Continued)

Ontario Properties

In October 2017 the Company purchased 17 mineral claims in the Horwood township of the Porcupine mining division, Ontario from a related party for \$1,000. The claims are subject to a pre-existing 3% NSR.

8. ACCRUED LIABILITIES

Accrued liabilities are summarized as follows:

	May 31 2019	May 31 2018
Professional fees	\$ 15,000	\$ 11,000
Constructive obligation (1)	\$ 114,991	\$ 178,776
	\$ 129,991	\$ 189,776

(1) Based on the BC government's Chief Inspector's orders issued to all companies with tailings ponds, and as directly requested by the Ministry of Energy and Mines, the Company is required to make improvements to the tailings ponds prior to reopening the Silvana mine at Sandon, BC. The Company originally accrued \$415,000 as a constructive obligation with respect to these improvements and as at May 31, 2019 the remaining balance is \$114,991. This amount is an estimate based on information which has been provided by an independent engineering firm that specializes in geotechnical and environmental consulting and Company estimates.

9. RESTORATION PROVISION

The Company has calculated the fair value of the restoration provision as at May 31, 2019 using a pre-tax discount rate of 5.00% (May 31, 2018 – 5.00%). The estimated total future undiscounted cash flows to settle the restoration provision at May 31, 2019 is \$142,500 (May 31, 2018 - \$142,500). The Company has estimated that the payments will be made in 2025.

	May 31 2019	May 31 2018
Balance, beginning of the year	\$ 101,251	\$ 96,430
Accretion	5,063	4,821
	\$ 106,314	\$ 101,251

The components of this obligation are the removal of equipment currently used at the property as well as costs associated with the reclamation of the camp and work sites on the property. It is the Company's intention to continue exploration work on the property until at least the current mineral claim expiry, for which the key ground is currently July 18, 2026 without extension. The estimate of future asset retirement obligations is subject to change based on amendments to applicable laws, management's intentions, and mineral claim renewals.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

9. RESTORATION PROVISION (Continued)

The Company may be contingently liable for other decommissioning liabilities. However, such obligations are not recognized since the fair value cannot be reasonably estimated due to the uncertainty of the extent of reclamation and remediation work and the settlement dates.

10. RELATED PARTY BALANCES AND TRANSACTIONS

Due to Related parties balances consisted of the following*:

	May 31 2019	May 31 2018
Due to Directors and Officers*	\$ 810	\$ 509
Due to Company controlled by a Director*	2,932	2,329
Due to a major shareholder**	682,240	-
	<u>\$ 685,982</u>	<u>\$ 2,838</u>

* Unsecured, non-interest bearing, with no fixed terms of repayment.

** Unsecured, 10% interest, with no fixed terms of repayment.

The Company entered into the following transactions with related parties. All related party transactions were measured at the amount of consideration established and agreed to by the related parties.

- a) The Company was charged \$120,000 (May 31, 2018 - \$120,000) by an officer for services to the Company.
- b) Share based payments of \$Nil (May 31, 2018 - \$324,000) were attributable to directors and officers using the Black-Scholes option pricing model.
- c) The Company was charged \$36,000 (May 31, 2018 - \$32,500) by an officer for rent.
- d) The Company was charged \$12,538 in professional fees (May 31, 2018 - \$9,234) by a company controlled by a director.
- e) The Company accrued \$32,240 in interest on loans of \$650,000 (May 31, 2018 - \$3,452) to a company controlled by a major shareholder.

11. MORTGAGE PAYABLE

The Company has a first mortgage on the Rosebery property located in Rosebery British Columbia, Canada, in the amount of \$145,000. Interest payments of \$1,202 calculated at 9.95% per annum are due monthly. The mortgage balance is payable December 1, 2019.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

12. SHARE CAPITAL

- a) Authorized: Unlimited common shares without par value.
- b) Issued during the year ended May 31, 2019:

The Company closed a private placement for gross proceeds of \$1,204,250 as follows:

In April 2019, the Company closed a private placement tranche for total proceeds of \$152,500. The terms were: 3,050,000 units at a price of \$0.05 per unit. All units consist of one common share and one share purchase warrant entitling the holder to purchase one additional common share for five years at a price of \$0.05 per share.

In December 2018, the Company closed a private placement tranche for total proceeds of \$211,750. The terms were: 4,235,000 units at a price of \$0.05 per unit. All units consist of one common share and one share purchase warrant entitling the holder to purchase one additional common share for five years at a price of \$0.05 per share. The Company paid finders fees of \$7,500 relating to this private placement tranche.

In September 2018, the Company closed a private placement tranche for total proceeds of \$840,000. The terms were: 16,800,000 units at a price of \$0.05 per unit. All units consist of one common share and one share purchase warrant entitling the holder to purchase one additional common share for five years at a price of \$0.05 per share. The Company paid finders fees of \$71,000 relating to this private placement tranche.

- c) Issued during the year ended May 31, 2018:

The Company closed a private placement for gross proceeds of \$1,000,000 as follows:

In January 2018, the Company closed a private placement tranche for total proceeds of \$500,000. The terms were: 10,000,000 units at a price of \$0.05 per unit. All units consist of one common share and one share purchase warrant entitling the holder to purchase one additional common share for five years at a price of \$0.05 per share. The Company paid finders fees of \$32,700 relating to this private placement tranche.

In December 2017, the Company closed a private placement tranche for total proceeds of \$500,000. The terms were: 10,000,000 units at a price of \$0.05 per unit. All units consist of one common share and one share purchase warrant entitling the holder to purchase one additional common share for five years at a price of \$0.05 per share. The Company paid finders fees of \$50,000 relating to this private placement tranche.

During the year ended May 31, 28, 2018, 998,000 warrants were exercised for cash proceeds of \$62,860.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

12. SHARE CAPITAL (Continued)

d) Warrants

A summary of the changes in warrants follows:

	NUMBER OF WARRANTS OUTSTANDING	WEIGHTED AVERAGE EXERCISE PRICE
Balance, May 31, 2017	83,422,446	\$ 0.06
Issued	20,000,000	0.05
Exercised	(998,000)	0.06
Expired	(16,706,946)	0.07
Balance, May 31, 2018	85,717,500	\$ 0.06
Issued	24,085,000	0.05
Expired	(2,590,000)	0.07
Balance, May 31, 2019	107,212,500	\$ 0.05

As at May 31, 2019, the following share purchase warrants were outstanding:

TOTAL NUMBER OF WARRANTS	EXERCISE PRICES	EXPIRY DATES
14,177,500	\$ 0.07	September 24, 2019*
4,900,000	\$ 0.07	November 16, 2019
18,400,000	\$ 0.05	June 2, 2020
19,850,000	\$ 0.05	January 31, 2022
5,800,000	\$ 0.055	January 31, 2022
10,000,000	\$ 0.05	December 1, 2022
10,000,000	\$ 0.05	January 24, 2023
16,800,000	\$ 0.05	September 6, 2023
4,235,000	\$ 0.05	December 10, 2023
3,050,000	\$ 0.05	April 25, 2024
<u>107,212,500</u>		

As at May 31, 2019 the weighted average remaining contractual life of the share purchase warrants was 2.53 years (May 31, 2018 – 2.90 years) and the weighted average exercise price was \$0.05 (May 31, 2018 - \$0.06).

*Subsequent to year end, expired unexercised.

f) Stock Options

The Company has a stock option plan that provides for the issuance of options to its directors, officers, employees and consultants. The maximum number of outstanding options must be no more than 10% of the issued and outstanding shares at any point in time.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

12. SHARE CAPITAL (Continued)

On March 26, 2018 the Company granted 500,000 incentive stock options to employees exercisable for a period of two years at a price of \$0.10. The fair value of these stock based compensation options granted was estimated on the date of grant in the amount of \$18,000 using the Black-Scholes valuation model with the following assumptions: i) exercise price per share of \$0.10; ii) expected share price volatility of 103%; iii) risk free interest rate of 1.88%; iv) no dividend yield, v) expected life of 2 years and vi) fully vested on grant.

On January 14, 2018 the Company granted 6,970,000 incentive stock options to a director, employees and consultants exercisable for a period of five years at a price of \$0.06. The fair value of these stock based compensation options granted was estimated on the date of grant in the amount of \$376,380 using the Black-Scholes valuation model with the following assumptions: i) exercise price per share of \$0.06; ii) expected share price volatility of 148%; iii) risk free interest rate of 1.97%; iv) no dividend yield, v) expected life of 5 years and vi) fully vested on grant.

The following is a summary of the changes in stock options:

	NUMBER OF OPTIONS	WEIGHTED AVERAGE EXERCISE PRICE
Outstanding and exercisable at May 31, 2017	7,725,000	\$ 0.08
Options granted	7,470,000	0.06
Options cancelled/expired	(3,300,000)	0.09
Outstanding and exercisable at May 31, 2018	11,895,000	\$ 0.06
Options cancelled/expired	(1,350,000)	0.10
Outstanding and exercisable at May 31, 2019	10,545,000	\$ 0.06

As at May 31, 2019 the following stock options were outstanding and exercisable:

NUMBER OF OPTIONS OUTSTANDING	EXERCISE PRICES	EXPIRY DATES
150,000	\$ 0.07	June 29, 2019*
400,000	\$ 0.10	March 25, 2020
2,625,000	\$ 0.05	June 21, 2021
350,000	\$ 0.055	December 19, 2021
50,000	\$ 0.10	April 24, 2022
6,970,000	\$ 0.06	January 13, 2023
<u>10,545,000</u>		

As at May 31, 2019 the weighted average remaining contractual life of the stock options was 3.04 years (May 31, 2018 – 3.63 years) and the weighted average exercise price was \$0.06 (May 31, 2018 – \$0.06).

*Subsequent to year end, expired unexercised.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

12. SHARE CAPITAL (Continued)

g) Nature and Purpose of Reserves

The reserves recorded in equity on the Company's statement of financial position from time to time will include "Contributed Surplus", "Warrant Reserve", and "Share-based Payment Reserve".

- "Contributed Surplus" recognizes amounts contributed to the Company shareholders either by way of direct contribution of cash or assets to the Company or delivery of assets to the Company having a fair value in excess of consideration paid by the Company.
- "Warrant Reserve" is used to recognize the fair value of share warrants prior to exercise or expiry.
- "Share-based Payment Reserve" is used to recognize the fair value of stock option grants prior to exercise, expiry or cancellation and the fair value of other share-based consideration paid at the date of payment.

13. MANAGEMENT OF CAPITAL

The Company manages its cash, common shares, stock options and warrants as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of its exploration and evaluation assets and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk. The Board of Directors does not establish a quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management team to sustain the future development of the business.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue debt, acquire or dispose of assets or adjust the amount of cash and cash equivalents.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. In order to maximize exploration efforts, the Company does not pay out dividends. The Company's investment policy is to keep its cash treasury on deposit in an interest bearing Canadian chartered bank account.

There were no changes in the Company's approach to capital management during the years ended May 31, 2019 and 2018. The Company is not subject to externally imposed capital requirements.

14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial assets and financial liabilities are measured on an ongoing basis at fair value or amortized cost. The disclosures in the notes to these financial statements describe how the categories of financial instruments are measured and how income and expenses, including fair value gains and losses, are recognized.

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018

(Expressed in Canadian dollars)

14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Continued)

The Company is exposed to potential loss from various risks including commodity price risk, interest rate risk, currency risk, credit risk and liquidity risk. Based on the Company's operations the liquidity risk and commodity price risk are considered the most significant.

a) Commodity Price Risk

The Company's ability to raise capital to fund exploration or development activities is subject to risk associated with fluctuations in the market prices of base and precious metals including gold, silver, zinc and lead, and the outlook for these metals. The Company does not have any hedging or other derivative contracts respecting its operations.

Market prices for metals historically have fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, levels of worldwide production, short-term changes in supply and demand, industrial and retail demand, central bank lending, and forward sales by producers and speculators. The Company has elected not to actively manage its commodity price risk, as the nature of Company's business is in exploration.

b) Liquidity Risk

The liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due. The Company manages its liquidity risk through careful management of its financial obligations in relation to its cash position. Using budgeting processes the Company manages its liquidity requirements based on expected cash flow to ensure there are adequate funds to meet the short term obligations during the period.

In the past the Company has been able to maintain its liquidity position through private placements. However, the variable market conditions make it uncertain whether the Company can continue to raise adequate funds to meet its financial obligations.

15. INCOME TAXES

a) Provision for Income Taxes

The Company's provision for income taxes for the years ended May 31, 2019 and 2018 differs from the amounts computed by applying the statutory income tax rates to the loss before income taxes as a result of the following:

	2019	2018
Statutory Canadian corporate tax rate	27%	27%
Expected current income tax recovery	\$ (175,000)	\$ (328,000)
Non-deductible permanent differences	27,000	108,000
Other	(20,000)	(22,000)
Effect of rate change	-	(94,000)
Change in tax assets not recognized	168,000	336,000
Deferred income tax recovery	\$ -	\$ -

KLONDIKE SILVER CORP.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED MAY 31, 2019 AND 2018 (Expressed in Canadian dollars)

15. INCOME TAXES (CONTINUED)

b) Deferred Income Tax Assets and Liabilities

The estimated tax effect of the significant components within the Company's deferred tax liability was as follows:

	2019	2018
Mineral properties	\$ (552,000)	\$ (517,000)
Non-capital losses carried forward	2,897,000	2,732,000
Capital losses	-	-
Capital assets	377,000	369,000
Share issue costs	49,000	45,000
Valuation allowance	(2,771,000)	(2,629,000)
Net deferred income tax liabilities	\$ -	\$ -

The Company's non-capital losses in the amount of approximately \$10,728,000 begin to expire in 2026.

c) Flow-through Resource Expenditures

During the year ended May 31, 2017 the Company raised \$280,000 in flow-through share financing. As of May 31, 2019 no amounts remain to be spent on exploration expenditures.

Klondike Silver Corp.
Form 51-102F1
Management Discussion and Analysis
For the Year Ended May 31, 2019

For the year ended May 31, 2019

This Management Discussion and Analysis (“MD&A”) should be read in conjunction with the financial statements of Klondike Silver Corp. (“Klondike Silver” or the “Company”) for the year ended May 31, 2019 which have been prepared in accordance with International Financial Reporting Standards (“IFRS”) annual reporting period.

The Company’s financial statements have been prepared on a going concern basis, which presume the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. The Company’s ability to continue as a going concern is dependent upon achieving profitable operations and upon obtaining additional financing. While the Company is extending its best efforts in this regard, the outcome of these matters cannot be predicted at this time, these financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue in business.

This MD&A has been prepared as of September 25, 2019. All amounts are expressed in Canadian dollars unless otherwise stated.

Forward Looking Information

This MD&A includes some statements that may be considered “forward-looking statements”. All statements in this discussion that address the Company’s expectations about future exploration and development are forward-looking statements. Although the Company believes the expectations presented in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include market prices, exploration successes or lack thereof, availability of capital and financing, and general economic, market, and business conditions. Readers are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements.

Risks and Uncertainties

The Company is subject to a number of risks and uncertainties due to the nature of its business. The Company’s exploration and development activities expose the Company to various financial and operational risks that could have a significant impact on its level of operating cash flows in the future. Readers are advised to study and consider risk factors stressed below.

The following are identified as main risk factors that could cause actual results to differ materially from those stated in any forward-looking statements made by, or on behalf of, the Company.

Financing

The Company’s future financial success depends on the ability to raise additional capital from the issue of shares or the discovery of properties which could be economically justifiable to develop. Such development could take years to complete and resulting income, if any, is difficult to determine. The sales value of any mineralization potentially discovered by the Company is largely dependent upon factors beyond the Company’s control, such as the market value of the products produced.

Klondike Silver Corp.
Form 51-102F1
Management Discussion and Analysis
For the Year Ended May 31, 2019

General Resource Exploration Risks and Competitive Conditions

The resource exploration industry is an inherently risky business with significant capital expenditures and volatile metals markets. The marketability of any minerals discovered may be affected by numerous factors that are beyond the Company's control and which cannot be predicted, such as market fluctuations, mineral markets, processing equipment, changes to government regulations, including those relating to royalties, allowable production, importing and exporting of minerals, and environmental protection. This industry is intensely competitive and there is no guarantee that, even if commercial quantities are discovered, a profitable market will exist for their sale. The Company competes with other junior exploration companies for the acquisition of mineral claims as well as for the engagement of qualified contractors. Metal prices have fluctuated widely in recent years, and they are determined in international markets over which the Company has no influence.

Governmental Regulation

Regulatory standards continue to change, making the review process longer, more complex and therefore more expensive. Exploration and development on the Company's properties are affected by government regulations relating to such matters as environmental protection, health, safety and labour, mining law reform, restrictions on production, price control, tax increases, maintenance of claims, and tenure. There is no assurance that future changes in such regulations couldn't result in additional expenses and capital expenditures, decreasing availability of capital, increased competition, reserve uncertainty, title risks, and delays in operations. The Company relies on the expertise and commitment of its management team, advisors, employees and contractors to ensure compliance with current laws.

Company Overview

Klondike Silver is a Canadian listed public company with its shares traded on the TSX Venture Exchange under the symbol "KS".

The Company is a resource exploration stage company engaged in the acquisition and exploration of mineral properties. For the funding of property acquisitions and exploration that the Company conducts, the Company depends on the issuance of shares from the treasury to investors and does not use long term debt. Once a body of commercial ore is found, the Company may offer to a major mining company the opportunity to acquire an interest in a property in return for funding by the major mining company, of all or part of the exploration and development of the property. The Company currently has no revenues from mineral producing operations and holds properties in British Columbia and the Yukon.

Additional information relating to the Company can be found on SEDAR at www.sedar.com and also on the Company's website at www.klondikesilver.com.

Overall Performance

Acquisition and exploration expenses during the year ended May 31, 2019 were \$1,052,256 (May 31, 2018 - \$796,612). Major categories were drifting and drilling for \$734,999 and supplies and maintenance for \$157,660 on the Slocan and Sandon BC claims. Exploration and evaluation asset expenditures during the year were primarily due to 3D mine modeling, 99.94 meters of exploration drifting, 542 meters of BQ drilling (4 holes) and 2 quarters of water quality baseline monitoring. A detailed total station survey of the tailings management facility (TMF) was conducted in October 2018 as part of the requirements for Golder Associates TMF studies and analysis in 2019, required by Ministry of Energy Mines and Petroleum Resources (EMPR).

Property Summaries and Exploration Updates

British Columbia Properties

Slocan Silver Camp

The Slocan Silver Camp is centered around the historic town of Sandon, located 50 kilometres northwest of Nelson in south-eastern, British Columbia. Sandon is 14.5 kilometres east of New Denver and has year round access via an all-weather gravel road which branches off of paved Provincial Highway 31A, 8.5 km from New Denver..

Klondike Silver's claims in the Slocan Camp cover an area of approximately 100 square kilometers and include 68 of the historical past-producing silver-lead-zinc mines of the camp, including the Silvana Mine. The Slocan Camp includes a fully operational 90 tonne per day (100 ton per day) mill situated immediately downstream of the historic town of Sandon. The claims include legacy claims, crown-granted claims, and recently acquired MTO mineral claims. Not all of the ground within the Camp is held by Klondike Silver and not all claims are contiguous

The central area of the Sandon camp, includes the second largest past producing mine in the region and has been the focus of Klondike Silver's underground exploration for the past several years.

Silvana Mine

The principal source of the Slocan Camp's historic silver-lead-zinc production comes from the Main Lode structure which is approximately 9 km long, extending from the town of Silverton on Slocan Lake to the historic town of Cody in the east. The Main Lode transects 'Silver Ridge' which separates two major drainage basins (Carpenter and Silverton Creeks) of the Selkirk Mountains. The Silvana production area covers approximately 1.3 km of the Main Lode. The Company claims extend approximately 1.5 km to the west of the Silvana's historic production zone. This region of the Main Lode has been named the "Silver Mile" by the Company. The western property boundary is 0.5 km from the Mammoth Mine, the next major mine to the west, along the Main Lode.

The Main Lode mines produced 1.8 million tonnes of ore with an average grade of 494 grams per tonne (g/t) (14.42 ounces per ton, oz/T) silver, 6.53 % lead and 5.29 % zinc (source BC MINFILE). Total production for all Main Lode mines was 888 tonnes (29 million oz) of silver, 117 million kg of lead and 97 million kg of zinc.

The mines within the Company's claims produced 965,000 tonnes of ore with an average grade of 596 g/t (17.38 oz/T) silver, 7.69 % lead and 4.19 % zinc. Total production of the Company's mines on the Main Lode was 575 tonnes (18 million oz) of silver, 74 million kg of lead and 40 million kg of zinc.

The Silvana Mine produced 511,000 tonnes of ore with an average grade of 476 g/t (13.87 oz/T) silver, 5.62 % lead and 5.15 % zinc. Total production of the Silvana Mine over 40 years was 243 tonnes (8 million ounces) of silver, 29 million kg of lead and 26 million kg of zinc.

The Silvana Mine was originally operated as a joint venture between Kam-Kotia and Burkham as the Silmonac Mine. The operation was re-name the Silvana Mine when Kam-Kotia and other mining companies amalgamated under Dickenson Mines Limited. In 1991 Treminco Resources Corp. In 1999 Klondike Gold took over the property and was later spun out as Klondike Silver Corp.

The Silvana mine is the only mine in the Slocan Mining Camp that was discovered from underground diamond drilling (i.e. a blind deposit). The old Ruth 5 level (Silvana 4000 Level) was extended westward from the New Ruth and Silversmith deposits and long up-hole diamond drill holes intersected substantial lead and zinc mineralization in 1968. Funds were raised for a higher elevation portal and Cross-cut Drift (Silvana 4625 Level) to intersect this mineralization. Production from the Silvana mine started in 1970 utilizing the refurbished 1952 Carnegie Mill, immediately downstream of the town of Sandon. Three side-hill tailings ponds have been constructed since production started (Tailings Management Facility – TMF), downstream of the mill. Pond #3 is the only active pond.

Klondike Silver Corp.
Form 51-102F1
Management Discussion and Analysis
For the Year Ended May 31, 2019

There are several tracked drifts to access mined areas (stopes) above the 4625 Level. Rubber-tired scooptrams utilized two declines to access stopes below 4625. There are three escapeways (Mascot portal, 4625 portal and 4000 portal) that provide natural ventilation year-round. Mining continued east and west of the 4625 Cross-cut Drift during the 1970s. In the west end the Main Lode structure changed its orientation and mineralization ceased. After continued exploration drifting and drilling on the structure in this area and with no mineralization intersected, mining ceased and continued only to the east and down the dip of the structure until 2010 when the operation mined out all visible mineralization.

It is now believed that the structure that was drifted and drilled in the west end was a post mineral fault that off-set the Main Lode by several hundred meters. The off-set was initially picked up by the last 3 drill holes completed in 2010 before the mine was put on “care and maintenance” status. These three holes mark the eastern edge of the “Silver Mile”.

The Silver Mile

The central underexplored “Silver Mile” portion of the Main Lode transects the steep-sided Silver Ridge at an elevation of 2140 meters. Several adits were developed between 1893 to 1923 by Carnation Silver Lead Mines Limited. Additional drifting in the Carnation Basin occurred in 1945 to 1952 by Kelowna Exploration Company. Although there are extensive workings in this area, limited production was recorded. This was due to economic and management conditions and the lack of underground diamond drilling, at that time.. The Main Lode surface expression was again explored in the 1960s initially by Silmonac, Kam-Kotia and then Dickenson Mines Ltd. Several strong soil geochemical anomalies were identified in 1983 to 1985 which lead to several short surface diamond drill programs that intersect significant mineralization in some of the holes in 1985. Since 1989, little surface exploration work has been done in this area due to the high altitude, rugged and steep terrain.

A 3D model has been developed over the last 4 years of the Company’s portion of the Main Lode from historical diamond drill records, plans and sections and has been converted to Universal Transverse Mercator (UTM) coordinates utilizing a LIDAR topographical survey and several total station surface and underground surveys. The 3D model has identified the Main Lode off-set and the post-mineral fault. Using this model, an Application to Amend the Silvana active mine permit M-65 was initiated in 2018. The application included an extension of the 4625 West Lateral Drift of approximately 160 meters to the west, installation of two diamond drill stations and 26 diamond drill holes totaling 2,060 meters. Drifting of the first 80 + meters of drifting started in October 2018 and was finished December 2018 which included the first drill station. Diamond drilling commenced in January 2019. Two holes have been completed as of February 2019. Both holes intersect brecciated Main Lode structure and confirmed a true width in this part of the Main Lode of 38.5 meters. Sphalerite and galena were detected in minor amounts in the core. Split core samples of the entire lode structure have been sent to ActLabs in Kamloops for analysis. Assays are pending. Along with the split core samples a series of QA/QC samples (certified reference material, blanks and duplicates) were inserted in the sample stream.

When substantial mineralization is intersected in the drill holes, an application to re-start the mill and TMF will be made to EMPR and Ministry of Environment. To reduce the government application timeframe, the Company initiated a baseline water quality monitoring program and benthic invertebrate study of the Carpenter Creek drainage basin and mine portals in late 2018. An acid rock drainage, metal leaching (ARD/ML) sampling program was started in 2017.

Ministry of Energy and Mines Request and Update

The EMPR has outlined a few issues at the Sandon Mine site that needed to be addressed. The Company has engaged the engineering firm Golder Associates (Golder) to complete reports related to the TMF and underground ground support system. This work included the Dam Safety Inspection, Dam Safety Review; Geotechnical Stability Analysis and Water Management Plan including an inflow design flood analysis, appropriate design of the TMF.. Golder is acting as the Engineer of Record for the TMF. Armouring of Carpenter Creek to a 200-year flood was undertaken in 2016 and 2017. The 4625 Cross-cut and West Lateral Drift were

Klondike Silver Corp.
Form 51-102F1
Management Discussion and Analysis
For the Year Ended May 31, 2019

rehabilitated to current ground control standards in 2017 and 2018.

The Annual Reclamation Reports, the TMF Operations, Maintenance and Surveillance Manual, the TMF and underground Emergency Response Plans and Effluent Discharge Reports and several Environmental Management Plans are all up to date.

The Company's mineral claim status and assessments are being completed to keep all the Klondike Silver claims in good standing.

Yukon Property

Klondike Silver's Stump claims in the Yukon are in good standing to February 4, 2022

Results of Operations, year ended May 31, 2019

For the year ended May 31, the Company had a net loss of \$650,689 (May 31, 2018 - \$1,215,161). The significant differences between the two periods include:

- An increase in interest and bank charges to \$50,946 (May 31, 2018 - \$15,648) mainly due to loans outstanding in the current year.
- A decrease in investor relation and promotion to \$116,254 (May 31, 2018 - \$214,399) mainly due to the expiry of a promotion contract in the current year.
- A decrease in share based compensation to \$Nil (May 31, 2018 - \$395,542) due to the granting of option in the prior year.
- An increase in recovery of expenses \$93,122 (May 31, 2018 - \$Nil) due to the write off of statute barred payables in the current year.

Off Balance Sheet Arrangements

At May 31, 2019, the Company did not have any off balance sheet arrangements to disclose.

Liquidity and Capital Resources

The Company has financed its operations primarily by the issue of share capital and loans from related parties.

The continued operations of the Company are dependent on its ability to complete sufficient public equity financing, or generate profitable operations in the future.

The Company had working capital (deficiency) of \$(1,046,196) at May 31, 2019 (May 31, 2018 - \$(370,859)). The Company does not have sufficient working capital to meet its obligations for the next twelve months.

The Company's capital needs in the current and previous years have been met by the following equity financings:

Year ended May 31, 2019:

The Company closed a private placement for gross proceeds of \$1,204,250 as follows:

In April 2019, the Company closed a private placement tranche for total proceeds of \$152,500. The terms were: 3,050,000 units at a price of \$0.05 per unit. All units consist of one common share and one share purchase warrant entitling the holder to purchase one additional common share for five years at a price of \$0.05 per share.

In December 2018, the Company closed a private placement tranche for total proceeds of \$211,750. The terms were: 4,235,000 units at a price of \$0.05 per unit. All units consist of one common share and one share purchase warrant entitling the holder to purchase one additional common share for five years at a price of \$0.05 per share. The Company paid finders fees of \$7,500 relating to this private placement tranche.

In September 2018, the Company closed a private placement tranche for total proceeds of \$840,000. The terms were: 16,800,000 units at a price of \$0.05 per unit. All units consist of one common share and one share purchase warrant entitling the holder to purchase one additional common share for five years at a price of \$0.05 per share. The Company paid finders fees of \$71,000 relating to this private placement tranche.

Klondike Silver Corp.
Form 51-102F1
Management Discussion and Analysis
For the Year Ended May 31, 2019

Year ended May 31, 2018:

The Company closed a private placement for gross proceeds of \$1,000,000 as follows:

In January 2018, the Company closed a private placement tranche for total proceeds of \$500,000. The terms were: 10,000,000 units at a price of \$0.05 per unit. All units consist of one common share and one share purchase warrant entitling the holder to purchase one additional common share for five years at a price of \$0.05 per share. The Company paid finders fees of \$32,700 relating to this private placement tranche.

In December 2017, the Company closed a private placement tranche for total proceeds of \$500,000. The terms were: 10,000,000 units at a price of \$0.05 per unit. All units consist of one common share and one share purchase warrant entitling the holder to purchase one additional common share for five years at a price of \$0.05 per share. The Company paid finders fees of \$50,000 relating to this private placement tranche.

During the year ended May 31, 2018, 998,000 warrants were exercised for cash proceeds of \$62,860.

Transactions with Related Parties

Due to Related parties balances consisted of the following*:

	May 31 2019	May 31 2018
Due to Directors and Officers*	\$ 810	\$ 509
Due to Company controlled by a Director*	2,932	2,329
Due to a major shareholder**	682,240	-
	\$ 685,982	\$ 2,838

* Unsecured, non-interest bearing, with no fixed terms of repayment.

** Unsecured, 10% interest, with no fixed terms of repayment.

The Company entered into the following transactions with related parties. All related party transactions were measured at the amount of consideration established and agreed to by the related parties.

- a) The Company was charged \$120,000 (May 31, 2018 - \$120,000) by an officer for services to the Company.
- b) Share based payments of \$Nil (May 31, 2018 - \$324,000) were attributable to directors and officers using the Black-Scholes option pricing model.
- c) The Company was charged \$36,000 (May 31, 2018 - \$32,500) by an officer for rent.
- d) The Company was charged \$12,538 in professional fees (May 31, 2018 - \$9,234) by a company controlled by a director.
- e) The Company accrued \$32,240 in interest on loans of \$650,000 (May 31, 2018 - \$3,452) to a company controlled by a major shareholder.

Klondike Silver Corp.
Form 51-102F1
Management Discussion and Analysis
For the Year Ended May 31, 2019

Provisions, Contingent Liabilities and Contingent Assets

Under IFRS, restoration provisions are measured at the inflation adjusted present value of the expected expenditures required to settle the obligation using a pre-tax discount rate reflecting the time value of money and risks specific to the liability.

Financial Instruments and Other Instruments

Financial instruments are exposed to commodity price risk, liquidity and market risks.

Commodity Price Risk

The Company's ability to raise capital to fund exploration or development activities is subject to risk associated with fluctuations in the market prices of base and precious metals including gold, silver, zinc and lead, and the outlook for these metals. The Company does not have any hedging or other derivative contracts respecting its operations. Market prices for metals historically have fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, levels of worldwide production, short-term changes in supply and demand, industrial and retail demand, central bank lending, and forward sales by producers and speculators. The Company has elected not to actively manage its commodity price risk, as the nature of Company's business is in exploration.

Liquidity Risk

The liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due. The Company manages its liquidity risk through careful management of its financial obligations in relation to its cash position. Using budgeting processes the Company manages its liquidity requirements based on expected cash flow to ensure there are adequate funds to meet the short term obligations during the year. During the past year the Company has been able to maintain its liquidity through private placements.

Investor Relations

Directors and Officers of the Company participate in a limited investor relations program.

Disclosure Controls and Procedures

Disclosure controls and procedures (“DC&P”) are intended to provide reasonable assurance that information required to be disclosed is recorded, processed, summarized and reported within the time periods specified by securities regulations and that information required to be disclosed is accumulated and communicated to management. Internal controls over financial reporting (“ICFR”) are intended to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with IFRS.

TSX Venture listed companies are not required to provide representations in the annual filings relating to the establishment and maintenance of DC&P and ICFR, as defined in National Instrument 52-109. In particular, the CEO and CFO certifying officers do not make any representations relating to the establishment and maintenance of (a) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation, and (b) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer’s IFRS. The issuer’s certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in their certificates regarding the absence of misrepresentations and fair disclosure of financial information. Investors should be aware that inherent limitation on the ability of certifying officers of a venture issuer to design and implement on a cost effective basis DC&P and ICFR as defined in National Instrument 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.
